

ILLUSION SHOW

Our Illusion Show is the big granddaddy of them all. This show is best presented on a stage with wings, but it can work on a dance floor with some restrictions.

The show comes complete with our own specially trained assistants and sound and lighting specialists. The audience must be seated to the front only, not to the sides.

The Illusion Show also features several of the highlights from our Floor and Stage shows...
It is the best of all worlds!

Watching our Illusion Show your mind will:

BOGGLE... as our beautiful assistant is divided into 3 separate pieces and her midsection completely removed!
Jenny Craig, eat your heart out!!!

SNAP... when your very own VIP (perhaps your CEO) magically appears in the middle of the stage in front of the whole audience ...Don't CEO's usually mysteriously disappear???

FLIP... at our gorgeous girl being penetrated at every angle by multiple poles, tubes and spears
It's impossible, it's incredible ... and it's legal!!!

SCRAMBLE.. while a common old board, and a common old Bow Saw are used to cut a common old audience member (or should that be "Dismember!") in half!

WALKAROUND MAGIC

Walkaround or Close Up magic is considered the most skilful genre of the art of magic.

It relies purely on sleight of hand using items which can be carried in the pocket such as, cards, coins, rubber bands, ropes and valuables borrowed from the spectators.

It is a 5 to 10 minute performance for small groups of 4 to 8 people at a time, either standing as in a cocktail situation or seated at a table in a restaurant situation. The act is repeated (with some variation) throughout the room until all your guests have been entertained, it takes up to 2 hours to cover an entire function.

Ideal for 80 or more people when you do not want the entire crowd to stop and watch a 45 minute show, as the rest of the guests can continue to socialise while each group is being entertained.
